MOBILE OFFICE FLEET

TEMPORARY SOLUTIONS

Rental Division

Triumph Modular has a 40-year history of experience leasing and providing space solutions across a variety of industries.

What are the features of the mobile offices?

Our fleet features a sleek grey color scheme with a wood exterior siding. Our interiors have all been standardized to include motion sensor light switches, USB ports, and energy-efficient windows.

Which States do we service and deliver to?

Triumph Modular's Boston Headquarters services Massachusetts, New Hampshire, Connecticut, and Rhode Island. Our Northern New England branch services Maine, Vermont, and New Hampshire. The Pittsburgh Region branch services western Pennsylvania, Ohio, and West Virginia. The Philadelphia Region branch services eastern Pennsylvania, New Jersey, and Delaware.

What are the different mobile office options?

We offer small office trailers (8' wide), medium office trailers (10' wide), and large office trailers (12' wide). We also offer 20' and 40' ground-level office containers* (New England area only). For larger jobs, we offer double-wide modular buildings (24' wide) and complexes that can be built to suit any desired office space.

What are the benefits of a mobile office?

Mobile offices are great for temporary office space. These mobile offices can be delivered and set up for short-term and long-term usage. We can add steps, ramps, and a variety of office furniture solutions to create a comfortable and convenient experience. If ground-level access is needed, an office container offers a very secure solution at any job site.

COMPARE MOBILE OFFICE OPTIONS

Width & Length	Office Square Feet	Private Offices	Bathroom	Heating/Cooling
8' x 24' OFFICE TRAILER	192	NONE	NONE	10,000 BTU Thru Wall
